Education

University of South Carolina
Moore School of Business
PhD - Finance (2021)
Dissertation Title:
"Three Essays on Agency Costs in Corporate Finance".
Committee:

- Eric Powers (Chair)
- Allen Berger
- Hugh Kim
- Omrane Guedhami

GPA: 3.63/4

Indiana State University
Scott College of Business
MBA (2014)
Finance Concentration
GPA: 3.94/4

King Saud University
College of Business Administration
B.S.B.A - Finance Track (2010)
GPA: 4/5

Biography

I am an Assistant Professor of Finance at King Saud University. My research lies in empirical corporate finance, with particular interest in how firms structure their debt and how governance mechanisms shape financial decisions. My work extends into policy through my role as a Research Advisor to the Capital Market Authority (CMA), where I have helped inform a range of the Authority's policy decisions, and into practice through my service as a board trustee and financial supervisor of a regulated non-profit fund. In the classroom, I draw on these experiences to teach corporate finance, valuation, and investments across undergraduate, MBA, and executive master's programs.

Affiliations

Capital Market Authority (CMA) — 05/2025 - Present
Research Advisor
Deanship of Strategy, Research, and International Relations
Riyadh, Saudi Arabia

- Contribute to policy research on the Saudi capital market, including active mutual fund performance, earnings call practices, and mutual fund voting patterns in listed companies; findings were adopted by the CMA Board, including a mandatory earnings call disclosure requirement.
- Estimate the stock-price impact of investor violations for inter-departmental cases, providing the basis for quantifying investor harm and determining compensation for affected investors.
- Support the CMA's Research Agenda Program on an ongoing basis across all its tasks, from screening proposals to evaluating funded research.

King Saud University — 02/2022 - Present
Assistant Professor of Finance
Finance Department, College of Business Administration
Riyadh, Saudi Arabia

- Teach graduate (MBA, EMBA, and executive master's) and undergraduate courses, primarily in portfolio management and corporate finance.
- Supervise master's students' research and collaborate with departmental colleagues on several ongoing research projects.
- Lead the department's quality-assurance process, using employer feedback on new graduates from the Cooperative Training course to improve the bachelor's program.
- Lead the initiative to update the finance track of the PhD program in Business Administration.

Malaah Financial Consulting — 09/2023 - 06/2024
Consultant
Riyadh, Saudi Arabia

- Advised owners of small and medium-sized enterprises (SMEs) on financial management, primarily cash flow problems, financing needs, and investment decisions.
- Conducted financial analysis and built financial models to diagnose liquidity issues, compare financing options, and evaluate proposed investments.
- Developed **Malaah_app**, an in-house tool that helps staff match clients with suitable financing products.

University of South Carolina 08/2015 - 12/2020
Research & Teaching Assistant
Moore School of Business
Columbia, SC, USA

- Supported research projects for Professors Eric Powers, Sergey Tsyplakov, Matthew Souther, Dongmei Li, and Da Ke through literature reviews, data collection (including Python web scraping), replication of published studies, and editing of research drafts.
- Assisted Prof. Eric Powers with grading and teaching in the undergraduate Introduction to Finance course; designed a Monte Carlo simulation of a 401(k) retirement plan, used for multiple semesters as the final project, in which students compared best- and worst-case retirement outcomes from saving early versus starting in their 30s or 40s.

Indiana State University 05/2014 - 05/2015
AACSB Assistant Coordinator
Scott College of Business
Terre Haute, IN, USA

- Coordinated the collection and verification of all faculty intellectual contributions for the college's five-year AACSB continuous improvement review.
- Managed and audited a comprehensive database of research outputs for over 60 faculty members, ensuring accurate classification and alignment with AACSB standards for faculty sufficiency.
- Served as a key liaison between the Dean's office and faculty, communicating reporting requirements to ensure the timely and accurate submission of all necessary documentation.

Board & Governance Roles

Ghars Aljoud Fund 07/2026 - Present
Board Trustee & Financial Supervisor
Saudi Arabia

- Serve on the board of trustees of a non-profit family fund regulated by the National Center for Non-Profit Sector (NCNP), helping establish its governance framework and investment policy.
- As financial supervisor, approve disbursements, review financial statements, coordinate with the external auditor, and oversee the fund's NCNP reporting and compliance.

University Service & Committee Leadership

PhD Program Council 2026 - Present
Member
College of Business Administration
King Saud University
Oversee doctoral curricula, policies, and program requirements and help establish common admission, test-score, and English-proficiency standards across departments.

Quality & Assurance of Learning Committee 2025 - Present
Chair
Finance Department
King Saud University
Established a centralized repository for departmental records and accreditation evidence; documented AACSB and NCAAA requirements.

Exam Committee 2025
Vice Chair
College of Business Administration
King Saud University
Oversaw final-examination operations, processed make-up examination requests, and documented academic-integrity violations arising during examinations.

Curriculum Committee 2025
Vice Chair
Finance Department
King Saud University
Reviewed and revised the bachelor's finance curriculum to eliminate overlapping material and improve course sequencing and program coherence.

Teaching Experience

King Saud University 2022 - Present
College of Business Administration
Riyadh, Saudi Arabia

- **Graduate:** Valuation, Mergers & Acquisitions (EMBA 523); Corporate Finance (FIN 501, MBA); Investment Analysis (BA 523, MBA); Corporate Finance & Modeling (EFIN 515, Executive Master in Financial Technology); Financial Modeling (EFIN 511, Executive Master in Finance); Energy Investment & Finance (ERE 522, Executive Master in Renewable Energy).
- **Undergraduate:** Portfolio Theory & Investment Analysis (FIN 363); Cooperative Training (FIN 477); Mathematics of Money & Investments (QUAN 127).

University of South Carolina Summer 2017 & 2019
Instructor
Moore School of Business
Columbia, SC, USA

- Investment Analysis & Portfolio Management (FINA 469). *Evaluation:* 4.55/5.

Indiana State University Fall 2014
Instructor
Scott College of Business
Terre Haute, IN, USA

- Business Statistics I (BUS 205). *Evaluation:* 3.77/5.

Working Papers

- Alhudhaif, Eyad. (2021). "The Asymmetry Between Growth Opportunities and Debt Maturity Structure". *Working Paper*. https://dx.doi.org/10.2139/ssrn.3906487.
  Using the recent public health pandemic (COVID-19) as a laboratory experiment, I find evidence of an asymmetrical relation between a firm's debt maturity structure choice and its growth opportunities. Firms with high pre-pandemic exposure to growth-inducing factors obtained from 10-K filings have increased debt maturity and are more likely to exercise a call on their callable bonds, while firms with high pre-pandemic exposure to growth-reducing factors are null in taking any actions to adjust their debt maturity structure. Further, the increase in debt maturity following exogenous changes in growth opportunities suggests a unique type of change in firms' growth options following the recent pandemic, supporting the arguments proposed by Diamond and He (2014) and Childs,

Mauer, and Ott (2005).

- Alhudhaif, Eyad. Berger, Allen. Kim, Hugh. (2021). "Firm Risk Exposure Concentration and Debt Structure Choice". *Working Paper*.
  Firms with more risk shifting problems due to the high-risk exposure concentration are likely to include more short-term debt in their capital structures and less covenants in their outstanding bonds. Using a firm's risk exposure concentration derived from the written text in 10-K filings, we find this effect is more pronounced among companies with strong managerial incentive alignment with shareholders. The findings suggest maintaining future investment flexibility is important for firms with high-risk exposure concentration, even at the expense of a higher liquidity risk associated with the use of short-term debt.
- Alhudhaif, Eyad. (2016). "Corporate Payouts Under Economic Policy Uncertainty". *Working Paper*.
  Using a sample of all public firms in the U.S. between 1985 and 2015, I examine the relation between firm's payout policy behavior under changes economic policy uncertainties, both total and individual components of payouts; dividends and open market share repurchases. Using the EPU index and its components developed by Baker et al. (2016), I find payout programs tend to respond differently depending on the source of economic uncertainty. A persistent negative relationship exists between the level of uncertainty in government spending (GSU) and firms' average level of dividends, share repurchase, and total payout.

Involvements & Awards

- Mentored students in the "Distinguished and Talented Students Program", *King Saud University* (2023)
- APICS Great Lakes District Student Case Competition; ranked 4th, *Indiana State University* (2014)
- Beta Gamma Sigma Award, *Indiana State University* (2014)
- Secretary of the MBA Association, *Indiana State University*, (2013-2015)
- Member of the Association for Operations Management, *University of Indianapolis Student Chapter* (2013)
- Member in the Investment Club, *Indiana State University*, (2013-2014)
- Outstanding Student Award, *University of Washington* (2011)
